Summary of Business Model

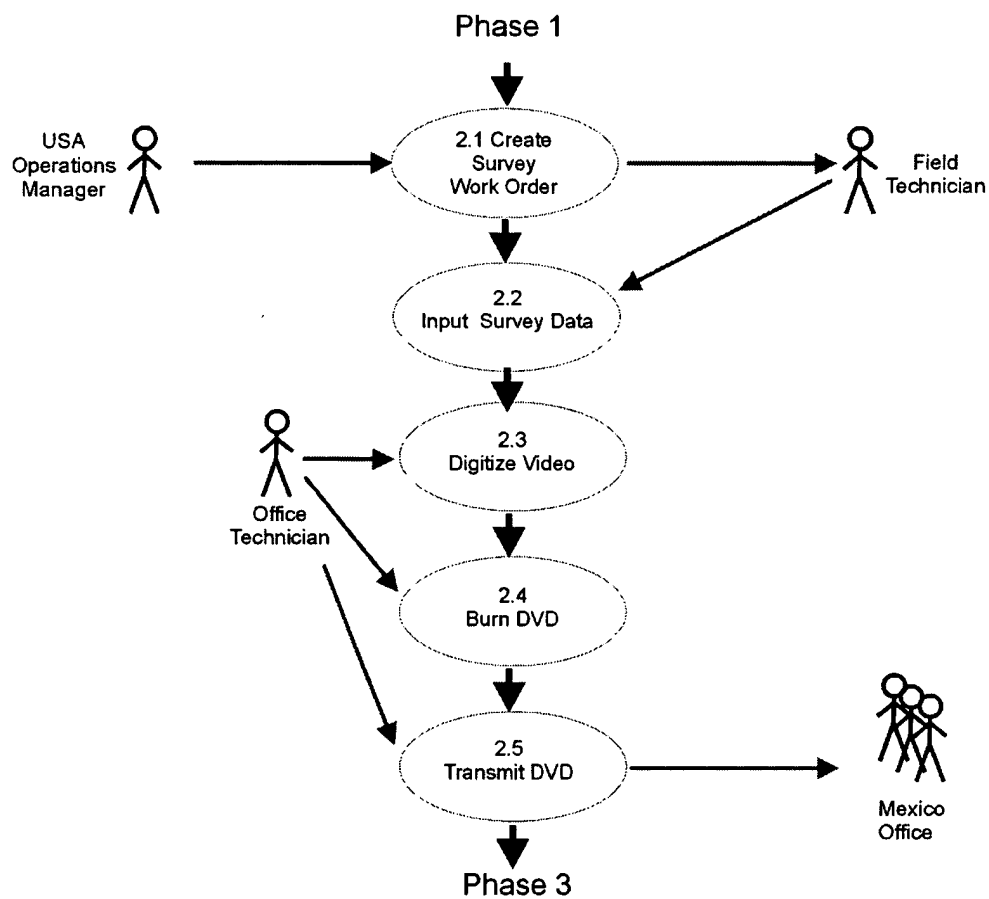

The diagram illustrates the workflow for Phase 1 of the PMS process. It begins with a 'Start' node leading to activity 1.1, 'Request Cost Proposal'. This activity involves interactions with a 'Client' and a 'USA Operations Manager'. The flow continues through 1.2, 'Create New Project'; 1.3, 'Create Work Order (Reconnaissance)', which involves a 'Field Technician'; 1.4, 'Input Reconnaissance Data'; 1.5, 'Create Cost Estimate'; 1.6, 'Create Contract Proposal', which involves another 'Client'; and finally 1.7, 'Notify Contract Acceptance'. A feedback loop labeled '1.8 Change Order' returns from 1.7 to 1.1. Dashed arrows indicate return paths from various activities back to the central vertical swimlane. A legend at the bottom left identifies the swimlane as 'Other related system (not part of PMS)'. The phase concludes with an arrow pointing to 'Phase 2'.

```
graph TD; Start([Start]) --> 1.1([1.1. Request Cost Proposal]); 1.1 --> 1.2([1.2. Create New Project]); 1.2 --> 1.3([1.3. Create Work Order Reconnaissance]); 1.3 --> 1.4([1.4. Input Reconnaissance Data]); 1.4 --> 1.5([1.5. Create Cost Estimate]); 1.5 --> 1.6([1.6. Create Contract Proposal]); 1.6 --> 1.7([1.7. Notify Contract Acceptance]); 1.7 --> End([Phase 2]); 1.7 -.-> 1.8([1.8. Change Order]); 1.8 -.-> 1.1;
```
